Noelda.Lopez@flhealth.gov

Office: 352-589-6424, After Hours: 352-728-7662

EUSTIS, FL – The Florida Department of Health invites you to join the Lake County, Florida community on Thursday, August 4, 2016 at 2:00 PM to review the results of the 2016 Local Public Health System Assessment Report.

A local public health system assessment is a process that collects and analyzes how well the local public health system is organized, governed, and meets the essential services of public health. The assessment folds into the Mobilizing for Action through Planning and Partnerships (MAPP) model of community health improvement as one of four types of assessments that provides information for community health planning.
