**FLORIDA DEPARTMENT OF HEALTH IN LAKE COUNTY TO OFFER
SEXUALLY TRANSMITTED INFECTIONS (STI) ASSESSMENT TESTING**

Lake County - The Florida Department of Health in Lake County is offering STI assessment testing every second and fourth Wednesday of the month at the Clermont Health Center located at 875 Oakley Seaver Drive, Clermont, FL 34711 from 9 am until 3 pm. Educational materials will be available and the following tests will be offered for a minimal fee:

HIV -Blood/Oral Rapid Test	\$10.00
HIV, Syphilis, Chlamydia and Gonorrhea - Urine & Blood Test	\$40.00

According to the Center of Disease Control and Prevention (CDC) false assumptions about STIs, how they're spread, prevented, and treated are everywhere and it can be especially hard for people to get the facts. Half of the estimated 20 million STIs that occur in the U.S. each year are among young people.

Did You Know?

- Most STI's, even HIV are treatable and most are curable. If left untreated they can lead to serious health problem including death.
- Many STI's don't have any symptoms therefore the only way of knowing is getting tested.
- STI tests are not always part of a regular doctor visit, therefore you won't get one unless you request it.

Remember, you can better protect your health and your partners by getting tested. To schedule an appointment or for more information please contact the departments' Clermont Health Center at (352) 989-9001 or visit our website at <http://lake.floridahealth.gov/>

####

The department works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.
